NRG - Cypress automation challenge

Automation Test:

Show your skills in UI test automation by creating a **cypress** project to implement the below scenarios and make sure to have a good project design following guidelines.

Scenario 1:

1. Go to this URL
2. Validate the form title 'DUMMY REGISTRATION FORM'.
3. Validate the form is having the following items:
   a. Already Have an Account? | Signin - (Validate the text and links href)
   b. ENTER TO THE TESTING WEBSITE - (Validate the text and links href)
   c. EXPLORE LIFETIME MEMBERSHIP - (Validate the text and links href)
4. Validate the form to have the following fields: Name, Phone, Email, Country, City, Username, Password.
5. Click the 'Submit' button, and validate the error message.
6. Fill in all required data then click the 'Submit' button.
7. Assert the displayed message 'This is just a dummy form, you just clicked SUBMIT BUTTON '
8. Click on link 'Signin'
9. Validate the new form is open with title 'LOGIN'
10. Type username and password.
11. Click 'LOGIN'
12. Validate the message displayed 'This is just a dummy form, you just clicked LOGIN

Scenario 2:

1. Go to this URL
2. Perform the drag and drop of the 'Drag me to my target' box to 'Dropped!' box.

Deliverables

Make sure that your assignment should include the following:

1. Cypress project implementing the required scenarios
2. The project should be well structured.
3. Code is readable and self-explanatory.
4. A Video of running the cypress project.
